

PRODUCT SPEC SHEET

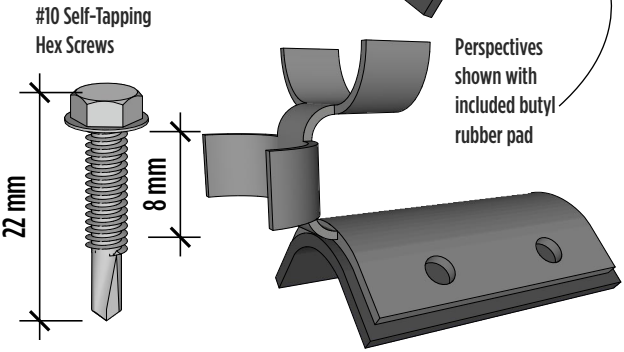

Product Model #: JS-222

Product Name: Corrugated Metal Roof Clip

FOR USE ON	
Asphalt Shingles	
• R-Panel Roofing	
• Corrugated Metal	
Membranes	
Other	

DESCRIPTION:
The body of the JS-222 is shaped to accommodate the vast majority of standard North American paneled metal roof profiles including both corrugated and trapezoidal panels (also known as 'R-Panel'). The included 3mm thick butyl pads (MKS-1022-1) seal around the mounting screws to significantly reduce the likelihood of water ingress, providing years of reliable service for any heat cable system mounted to a corrugated metal roof. The JS-222 is made of 1.2mm thick 5052 anodized aluminum alloy, sold in boxes of 10, including 10 clips, 10 butyl pads and 46 self-tapping sheet metal screws (40 screws for the clips, and 6 for the ones that slide off the roof while you're working). Use a standard 5/16" (8mm) driver bit for the screws.
