DESCRIPTION:

The GVG clip is made of 1.2 mm black 5052 anodized aluminum and comes in three sizes and is designed to provide a strong attachment point for the installation of heat cable on most common standing seam metal roofs. The GVG-50 series will fit standing seams between 3/8" to 1/2" and when coupled with the optional MKS-1022-2 butyl pad provide an watertight method of heat cable installation. Use the included self-tapping sheet metal screws to attach the GVG clips to the standing seams. GVG clips are sold in boxes of 10, including 22 screws (20 screws for the clips and 2 for the ones that roll off the roof while you're working). Model numbers: GVG-325 (3/8" ID), GVG-50 (1/2" ID) and GVG-625 (5/8" ID). Use a standard 5/16" (8 mm) driver bit for the screws.

#10 Self-Tapping
Hex Screws
